

# WOODMART

PRICE, QUALITY & SERVICE

## Delivery Options

### Tipper Truck

- Up to 4.2 tonne total weight and can carry 6.0m length of timber.
- Driveway must be 2.7m wide.
- No overhanging trees and power lines.
- Consider the mix of product as some items cannot be tipped.
- Driveway must be level/flat without a downward/upward gradient to ensure the goods do not move once tipped off the truck.
- All items will be tipped from the rear of the truck so we can drop the load on the driveway or at the end of the driveway.

### Hiab Truck

- Up to 10.5 tonne total weight and can carry 6.0m length of timber. Crane will lift 1.2 tonne out to 4m width.
- Driveway must be 3.2m wide, ensure adequate turning space in the road (truck is 12m long).
- No overhanging trees and power lines.
- Driveway must be level/flat without a downward/upward gradient to ensure the goods do not move once placed on the driveway.
- All items will be dropped to either side of the truck so you need to ensure adequate clearance.
